Dear competition commission of the "IPARC Contest 2023"!

In 2022, the "IPARC Contest" was canceled due to the war in Ukraine and the suspension membership of Russia in "IPA".

As of October 2023, the war in Ukraine is far from over and Russia's membership in the "IPA" has not been restored (see link <https://www.ipa-international.org/National-sections/russia-provisionally-suspended/143106>).

The holding of the "IPARC Contest" in November 2023 is definitely a significant amateur radio event.

At the same time, it is not clear why radio amateurs are allowed to participate in the "IPA" competitions membership of the country whose membership in "IPA" is suspended?

In order to legalize the occupied territories of Donbass, the Russian occupation administration carries out extradition illegal exclamations - prefixes D0, D1. Issuing callsigns in the occupied territories of Ukraine contributes to politicization air and the spread of piracy.

Radio amateur clubs of Russia systematically conduct activities on the air and issue awards dedicated to:

- the anniversary of Russia's occupation of Crimea;
- Russia's annexation of the south-eastern regions of Ukraine;
- Russian occupying soldiers killed in Ukraine
- to the armed forces, military branches, military air and naval fleets, which kill civilian population of Ukraine.

Similar activities of Russians on the air not only violate one of the basic principles of amateur radio movements - "radio amateurism outside of politics", but also openly promote war and the occupation of foreign territories.

Law enforcement officials are well aware that propaganda of war in any form is a criminal offense.

I hope that after the given facts, you will introduce sanctions against radio amateurs of Russians / Belarusians on participation in the "IPARC Contest 2023" contest.

Best regards,

President of the UARL
Oleksandr Zaliznyak, UX7UU

October 24, 2023
